

About the FA-09

The FA-09 flash bracket adapter slides onto the swinging arm of the Wimberley Head Version II (WH-200) and allows you to use the old-style Wimberley Head flash bracket (F-4). The adapter has special cutouts that allow it to spring open and stay attached to the arm of the Head even when you are not using the flash bracket.

Instructions

Attaching the FA-09:

1. Slide the adapter onto the arm of the WH-200. The end with the two nubs should point down (see Fig. 1).
2. Slide the F-4 bracket onto the FA-09 and tighten the bracket's quick-release clamp (see Fig. 2). When you remove the bracket, the FA-09 will stay on the Head (see Fig. 2).
